Free club tennis ladder template

From tennisladder.net. Run it by hand, or let the app do the bookkeeping: create a free ladder (up to 10 players) at tennisladder.net/create-ladder. Full guide: tennisladder.net/guides/club-tennis-ladder-template

Three rules to write on the standings sheet and post at the desk. Suggested defaults: challenge up to 3 or 4 places above you. The opponent has 2 or 3 days to answer. Once accepted, play within 7 to 10 days. No answer: release the challenge (gentler) or award it to the challenger (more competitive); write down which. Accepted but not played in time: cancel with no ranking change.
